2. RISK FACTORS

BEFORE INVESTING IN THE CALL WARRANTS, YOU SHOULD CAREFULLY CONSIDER THE FOLLOWING RISK FACTORS (WHICH MAY NOT BE EXHAUSTIVE) IN ADDITION TO OTHER INFORMATION CONTAINED ELSEWHERE IN THIS TERM SHEET AND RISK FACTORS AND OTHER INFORMATION CONTAINED IN THE BASE PROSPECTUS.

INVESTMENTS IN THE CALL WARRANTS INVOLVE DIFFERENT RISKS INCLUDING MARKET RISK, LIQUIDITY RISK, CREDIT RISK AND THE RISK THAT YOU MAY SUSTAIN TOTAL LOSS OF YOUR INVESTMENT IN THE CALL WARRANTS.

YOU SHOULD CONSIDER CAREFULLY WHETHER THE CALL WARRANTS ARE SUITABLE FOR YOU TAKING INTO ACCOUNT YOUR EXPERIENCE, OBJECTIVES, FINANCIAL POSITION AND OTHER RELEVANT CIRCUMSTANCES. YOU SHOULD POSSESS ADEQUATE KNOWLEDGE OF THE CALL WARRANTS BEFORE INVESTING.

2.1 No warranty of thorough investigation on XIAOMI

We make no warranty to have conducted comprehensive and exhaustive research or investigation on the business operations and prospects of XIAOMI. Therefore, you should not assume that the issue of Call Warrants represents a recommendation by us to invest in XIAOMI Shares.

2.2 Value of Call Warrants may be affected by inherent risk of XIAOMI's business

XIAOMI is principally an investment holding company which is incorporated in the Cayman Islands and its operations is based in China. Its subsidiaries are mainly involved in the research, development and sales of smartphones as well as internet of things (IoT) and lifestyle products. Its subsidiaries are also engaged in the provision of advertising services. XIAOMI distributes its products in Mainland China and other overseas markets such as Indonesia, Spain, France and Italy.

XIAOMI is subject to risks inherent to the abovementioned sectors. You should note that material and adverse impact in the industry in which XIAOMI operates may affect the performance of XIAOMI Shares on Bursa Securities and consequently affect the value of the Call Warrants.

2.3 Risk of "European Style" Structured Warrants

European style Structured Warrants are only exercisable on its Expiry Date. The price of such Structured Warrants in the secondary market may be traded at a discount (or premium, as the case may be) to its estimated fair value under certain circumstances, including supply and demand factors. Accordingly on the expiry date, if the cash settlement amount is zero or negative, you will lose the value of your investment.

2.4 The Base Prospectus and this Term Sheet are not the sole basis for making an investment decision

The Base Prospectus and this Term Sheet do not take into account your investment objectives, financial situation or particular needs. Nothing in the Base Prospectus and this Term Sheet should be construed as a recommendation by us or our affiliates to invest in the Call Warrants or XIAOMI Shares.

2. RISK FACTORS (Cont'd)

2.5 Exchange rate risk

You should note that there may be an exchange rate risk where the cash settlement amount may be converted from foreign currency into Ringgit Malaysia which will be borne by the Warrantholder(s). Exchange rates between currencies are determined by forces of supply and demand in the foreign exchange markets. These forces are, in turn, affected by factors such as international balances of payments and other economic and financial conditions, government intervention in currency markets and currency trading speculation.

2.6 Foreign law or regulatory policy risks

XIAOMI Shares are listed and traded in a market outside of Malaysia. Such foreign markets would have legal and regulatory regimes different from that of Malaysia and may therefore expose the investments over Structured Warrants on XIAOMI Shares to greater risks, as XIAOMI Shares have to be in compliance with the relevant laws, rules, regulations, guidelines, requirements or provisions imposed by HKEX.

2.7 Compliance with the relevant laws and regulations by XIAOMI

You should note that XIAOMI is subject to full compliance with the relevant laws, rules, regulations, guidelines, requirements or provisions imposed by the relevant authorities during the tenure of the Structured Warrants.

The performance of XIAOMI Shares on HKEX may be affected due to failure to comply with the relevant laws and regulations, which may in turn affect the value and/or performance of our Structured Warrants.

2.8 Risks related to the COVID-19 pandemic

The outbreak of the COVID-19 pandemic has had, and continues to have, significant economic ramifications, such as contractions in economic growth rates across the world. The ongoing COVID-19 pandemic and any possible future outbreaks of disease may have a material and adverse effect on the business operations, financial position and prospects of XIAOMI, the performance of XIAOMI Shares and consequently affect the value of the Structured Warrants.

Should the COVID-19 outbreak continue to cause disruptions to global and domestic economic activity, KIBB Group's financial position may be adversely impacted. Prolonged and material impact on KIBB Group's financial position may also cause a downward rating in KIBB Group credit rating profile, which could in turn affect the ability to meet our financial commitments as a Structured Warrants Issuer.

KIBB Group has put in place the necessary Standard Operating Procedures ("SOP") for COVID-19 and fortify the vibrancy of Business Continuity Management ("BCM") of the Group to ensure the preparedness, responsiveness and robustness in managing this event risk. In order to assess the severity of the COVID-19 pandemic, KIBB Group is also actively monitoring and evaluating this fluid situation and will take any additional actions as necessary.

3. SUPPLEMENTAL GENERAL INFORMATION

The distribution of this Term Sheet in certain other jurisdictions outside Malaysia may be restricted by law. You are required to be aware of such restrictions and to observe it. This Term Sheet does not constitute and may not be used for the purpose of an invitation to subscribe for or an offer to sell XIAOMI Shares in any jurisdiction in which such offer or invitation is restricted, not authorized or lawful or to any person to whom it is unlawful to make such offer or invitation.

3.1 Basis of arriving at the issue price

The issue price of the Call Warrants of RM0.150 was based on the Exercise Ratio and the warrant pricing model which takes into account the Exercise Price of the Call Warrants, volatility of XIAOMI Shares, tenure of the Call Warrants, expected dividend yield of XIAOMI Shares and interest rates.

3.2 Details on use of gross proceeds

We will use the indicative total gross proceeds arising from the Offer of up to RM5.25 million, based on the issue price of RM0.150, in the following manner:-

	Note	RM
Working capital	(i)	5,000,000
Estimated expenses	(ii)	250,000
Total		5,250,000

Notes:

- (i) *This amount will be utilised for our general working capital purposes during the tenure of the Call Warrants.*
- (ii) *The estimated expenses include professional fees, fees to authorities, selling fees and printing fees which will be used as and when the expenses are incurred.*
- (iii) *The financial impact of the Offer on our earnings depends on certain factors including, but not limited to, the performance of XIAOMI Shares vis-à-vis the market as well as the costs relating to risk management i.e. hedging and its associated costs.*

3.3 Break-even analysis

Warrantheolders may calculate the break-even level of their investments in the Call Warrants as follows:

$$\text{Break -even Level} = \text{Exercise Price} + \frac{[(\text{Purchase Cost}^{(i)} \times \text{Exercise Ratio}) + \text{Exercise Expenses}^{(ii)}]}{\text{Settlement Exchange Rate}}$$

Notes:

- (i) *This is the amount a Warrantheolder pays for every unit of Call Warrant in the primary or secondary market, including where relevant, transaction costs such as brokerage fees, clearing fees and stamp duty.*
- (ii) *The Exercise Expenses will be borne by KIBB unless affected by the occurrence of a settlement disruption event.*

Warrantheolders will obtain positive gain only if the price of XIAOMI Shares exceeds the break-even level upon exercise of the Call Warrants.

3. SUPPLEMENTAL GENERAL INFORMATION (Cont'd)

3.4 Further Issue

The Deed Poll allows KIBB to create and issue further Structured Warrants in respect of the same series of Structured Warrants pursuant to the Base Prospectus ("**Further Issue**") without the consent or sanction of the existing Warranholders. The Further Issue will form part of the existing Structured Warrants in issue ("**Existing Issue**").

For the purpose of facilitating Market Making, KIBB may apply for a Further Issue in respect of the Structured Warrants subject to the following conditions:

- (i) the Further Issue is for the purpose of facilitating Market Making;
- (ii) the terms and conditions of the Existing Issue either permit the Further Issue or have been properly amended to give us the right to issue and list one or more Further Issues;
- (iii) the terms and conditions of the Further Issue and the Existing Issue must be identical except for the size and tenure of the issue; and
- (iv) the Issuer holds not more than 50% of the Existing Issue at the time of application for the Further Issue.

3.5 Liquidity provision

We will be acting as the liquidity provider for the trading of the Call Warrants on Bursa Securities.

As an Issuer, it is our business policy to stand by our products by providing liquidity. As stipulated by the Bursa Securities, we will maintain a minimum market presence of 80% of trading hours on each day that Bursa Securities is open for trading and a maximum spread between bid and offer prices of ten (10) bids.

The process of providing liquidity involves maintaining bid and offer prices on the trading system of Bursa Securities on each Market Day, over the life of the Call Warrants. Although we endeavour to provide liquidity for the Call Warrants on Bursa Securities, the level of liquidity will depend on competitive forces and the price at which the Call Warrants will trade on Bursa Securities upon or subsequent to its listing. Besides the supply and demand for the Call Warrants in the secondary market, there are other factors affecting the price of the Call Warrants such as, without limitation, the underlying unit price, intrinsic value, dividend expectations, expected volatility, prevailing interest rates and the time left to the expiry of the Call Warrants.

As liquidity provider, we would need to maintain a certain number of Call Warrants as inventory for the purposes of liquidity provision during the tenure of the Call Warrants. The minimum quantity of Call Warrants for which liquidity will be provided is fifty (50) board lots (5,000 units of Call Warrants). We may during the tenure of the Base Prospectus issue additional Call Warrants in a particular series subject to the approval of Bursa Securities.

However, you should note that there would be circumstances under which we are unable and could not be obliged to provide liquidity, due to reasons beyond our control. Such circumstances are set out in Section 5.2 of the Base Prospectus.

You may obtain bid/offer prices for the Call Warrants (in respect of prices that appear on the trading system of Bursa Securities, and/or in respect of direct business transactions) from us at the following contact details:-
