1. TERMS AND CONDITIONS OF THE PUT WARRANTS (Cont'd)

Best and worst case scenarios of the Warranholders' investment in the Put Warrants:

- **Best case scenario**

The price of the Underlying Shares decreases substantially resulting in a significant increase in the price of the Put Warrants. If the Warranholders hold the Put Warrants until the Expiry Date, the higher the Exercise Price of the Put Warrants is relative to the Closing Price of the Underlying Shares, the higher the return will be after considering the transaction costs. If the Warranholders sell the Put Warrants prior to the Expiry Date, the more the selling price of the Put Warrants exceeds the purchase price of the Put Warrants, the higher the return will be after considering their transaction costs.

- **Worst case scenario**

The price of the Underlying Shares increases significantly resulting in a substantial decrease in the price of the Put Warrants. If the Warranholders have not sold the Put Warrants and the Put Warrants expires out-of-money, the maximum loss will be the Warranholder's entire investment amount in the Put Warrants plus any transaction costs.

2. RISK FACTORS

BEFORE INVESTING IN THE PUT WARRANTS, YOU SHOULD CAREFULLY READ, UNDERSTAND AND CONSIDER THE FOLLOWING RISK FACTORS IN ADDITION TO OTHER INFORMATION CONTAINED ELSEWHERE IN THIS TERM SHEET AND RISK FACTORS AND OTHER INFORMATION CONTAINED IN THE BASE PROSPECTUS.

INVESTMENTS IN THE PUT WARRANTS INVOLVE DIFFERENT RISKS INCLUDING BUT NOT LIMITED TO MARKET RISK, LIQUIDITY RISK, CREDIT RISK AND THE RISK THAT YOU MAY SUSTAIN TOTAL LOSS OF YOUR INVESTMENT IN THE PUT WARRANTS.

YOU SHOULD CONSIDER CAREFULLY WHETHER THE PUT WARRANTS ARE SUITABLE FOR YOU TAKING INTO ACCOUNT YOUR EXPERIENCE, OBJECTIVES, FINANCIAL POSITION AND OTHER RELEVANT CIRCUMSTANCES. YOU SHOULD POSSESS ADEQUATE KNOWLEDGE OF THE PUT WARRANTS BEFORE INVESTING.

2.1 No warranty of thorough investigation on YTLPOWR

We make no warranty to have conducted comprehensive and exhaustive research or investigation on the business operations and prospects of YTLPOWR. Therefore, you should not assume that the issuance of Put Warrants represents a recommendation by us to invest in YTLPOWR Shares.

2.2 Credit Risk

If you purchase our Put Warrants, you should be aware that you will be relying on the creditworthiness of our Company. You must therefore make your own assessment on the credit risk associated with KIBB and our ability to perform our obligations in respect of our Put Warrants. Credit ratings assigned by the rating agency reflect their opinion on our credit risk, which is only one aspect of any investment decision, and ratings are subject to change.

2.3 Value of Put Warrants may be affected by inherent risk of YTLPOWR's business

YTLPOWR is principally an investment holding company that provides administrative and technical support services to its subsidiaries. Through its subsidiaries, YTLPOWR is engaged in the provision of water supply and water sewerage services, as well as provision of telecommunications services such as internet and networking solutions. Its subsidiaries are also involved in the development, construction, completion, maintenance and operation of power plants.

YTLPOWR is subject to risks inherent to the abovementioned sectors. You should note that material and adverse impact in the industry in which YTLPOWR operates may affect the performance of YTLPOWR Shares on Bursa Securities and consequently affect the value of the Put Warrants.

2.4 Time decay

Put Warrants have expiry dates and therefore, a limited life. Put Warrants are generally more valuable when the remaining life of the Put Warrants are longer. After expiry, the Put Warrants will cease to be traded and can no longer be exercised, hence will cease to have any value.

2. RISK FACTORS (Cont'd)

2.5 Adjustment related risks

The occurrence of certain events (including a rights issue or bonus issue by YTLPOWR, a subdivision and consolidation of YTLPOWR Shares and a restructuring event of YTLPOWR) may entitle us to adjust the Terms of the Put Warrants. However, we are not obliged to adjust the Terms of the Put Warrants for every event that affects YTLPOWR Shares. Any adjustment or decision not to make any adjustment may adversely affect the value of the Put Warrants.

2.6 The Base Prospectus and this Term Sheet are not the sole basis for making an investment decision

The Base Prospectus and this Term Sheet do not take into account your investment objectives, financial situation or particular needs. Nothing in the Base Prospectus and this Term Sheet should be construed as a recommendation by us or our affiliates to invest in the Put Warrants or YTLPOWR Shares.

2.7 Risks related to the COVID-19 endemic and possible similar future outbreaks

The ongoing COVID-19 endemic and any possible future outbreaks of disease may have a material and adverse effect on the business operations, financial position and prospects of YTLPOWR, the performance of YTLPOWR Shares and consequently affect the value of the Put Warrants.

Should there be another outbreak of disease that causes disruptions to global and domestic economic activity, KIBB Group's financial position may be adversely impacted. Prolonged and material impact on KIBB Group's financial position may also cause a downward rating in KIBB Group credit rating profile, which could in turn affect the ability to meet our financial commitments as a Structured Warrants issuer.

KIBB Group has put in place the necessary Standard Operating Procedures ("SOP") for COVID-19 and other possible future outbreaks of disease and fortify the vibrancy of Business Continuity Management ("BCM") of the Group to ensure the preparedness, responsiveness and robustness in managing this event risk. Though there remain significant uncertainties in assessing the severity of the impact from COVID-19 or other disease outbreak, KIBB Group is actively monitoring and evaluating this fluid situation and shall take any additional actions as necessary.

3. SUPPLEMENTAL GENERAL INFORMATION

3.1 Basis of arriving at the issue price

The issue price of the Put Warrants of RM0.150 was based on the Exercise Ratio and the warrant pricing model which takes into account the Exercise Price of the Put Warrants, volatility of YTLPOWR Shares, tenure of the Put Warrants, expected dividend yield of YTLPOWR Shares and interest rates.

3.2 Details on use of gross proceeds

We will use the indicative total gross proceeds arising from the Offer of up to RM5.25 million, based on the issue price of RM0.150, in the following manner:-

	Note	RM
Working capital	(i)	5,000,000
Estimated expenses	(ii)	250,000
Total		5,250,000

Notes:

- (i) *This amount will be utilised for our general working capital purposes during the tenure of the Put Warrants.*
- (ii) *The estimated expenses include but not limited to professional fees, fees to authorities, selling fees and printing fees which will be used as and when the expenses are incurred.*
- (iii) *The financial impact of the Offer on our earnings depends on certain factors including, but not limited to, the performance of YTLPOWR Shares vis-à-vis the market as well as the costs relating to risk management i.e. hedging and its associated costs.*

3.3 Break-even analysis

Warrantheolders may calculate the break-even level of their investments in the Put Warrants as follows:

Break-even level = Exercise Price - [(Purchase Cost ⁽ⁱ⁾ x Exercise Ratio) + Exercise Expenses ⁽ⁱⁱ⁾]

Notes:

- (i) *This is the amount a Warrantheolder pays for every unit of Put Warrant in the primary or secondary market, including where relevant, transaction costs such as brokerage fees, clearing fees and stamp duty.*
- (ii) *The Exercise Expenses will be borne by KIBB unless affected by the occurrence of a settlement disruption event.*

Warrantheolders will obtain positive gain only if the price of YTLPOWR Shares falls below the break-even level upon exercise of the Put Warrants.

3. SUPPLEMENTAL GENERAL INFORMATION (*Cont'd*)

3.4 Further Issue

The Deed Poll allows KIBB to create and issue further Structured Warrants in respect of the same series of Structured Warrants pursuant to the Base Prospectus ("**Further Issue**") without the consent or sanction of the existing Warranholders. The Further Issue will form part of the existing Structured Warrants in issue ("**Existing Issue**").

For the purpose of facilitating Market Making, KIBB may apply for a Further Issue in respect of the Structured Warrants subject to the following conditions:

- (i) the Further Issue is for the purpose of facilitating Market Making;
- (ii) the terms and conditions of the Existing Issue either permit the Further Issue or have been properly amended to give us the right to issue and list one or more Further Issues;
- (iii) the terms and conditions of the Further Issue and the Existing Issue must be identical except for the size and tenure of the issue; and
- (iv) the Issuer holds not more than 50% of the Existing Issue at the time of application for the Further Issue.

3.5 Liquidity provision

We will be acting as the liquidity provider for the trading of the Put Warrants on Bursa Securities.

As an Issuer, it is our business policy to stand by our products by providing liquidity. As stipulated by Bursa Securities, we will maintain a minimum market presence of 80% of trading hours on each day that Bursa Securities is open for trading and a maximum spread between bid and offer prices of ten (10) bids.

The process of providing liquidity involves maintaining bid and offer prices on the trading system of Bursa Securities on each Market Day, over the life of the Put Warrants. Although we endeavour to provide liquidity for the Put Warrants on Bursa Securities, the level of liquidity will depend on competitive forces and the price at which the Put Warrants will trade on Bursa Securities upon or subsequent to its listing. Besides the supply and demand for the Put Warrants in the secondary market, there are other factors affecting the price of the Put Warrants such as, without limitation, the underlying unit price, intrinsic value, dividend expectations, expected volatility, prevailing interest rates and the time left to the expiry of the Put Warrants.

As the liquidity provider, we would need to maintain a certain number of Put Warrants as inventory for the purposes of liquidity provision during the tenure of the Put Warrants. The minimum quantity of Put Warrants for which liquidity will be provided is fifty (50) board lots (5,000 units of Put Warrants). We may during the tenure of the Base Prospectus issue additional Put Warrants in a particular series subject to the approval of Bursa Securities.

However, you should note that there would be circumstances under which we are unable and could not be obliged to provide liquidity, due to reasons beyond our control. Such circumstances are set out in Section 5.2 of the Base Prospectus.

You may obtain bid/offer prices for the Put Warrants (in respect of prices that appear on the trading system of Bursa Securities, and/or in respect of direct business transactions) from us at the following contact details:-
