1. TERMS AND CONDITIONS OF THE CALL WARRANTS (Cont'd)

Best and worst case scenarios of the Warranholders' investment in the Call Warrants:

- **Best case scenario**

The price of the Underlying Shares increases substantially resulting in a significant increase in the price of the Call Warrants. If the Warranholders hold the Call Warrants until the Expiry Date, the higher the Closing Price of the Underlying Shares is relative to the Exercise Price of the Call Warrants, the higher the return will be after considering the transaction costs. If the Warranholders sell the Call Warrants prior to the Expiry Date, the more the selling price of the Call Warrants exceeds the purchase price of the Call Warrants, the higher the return will be after considering their transaction costs.

- **Worst case scenario**

The price of the Underlying Shares decreases significantly resulting in a substantial decrease in the price of the Call Warrants. If the Warranholders have not sold the Call Warrants and the Call Warrants expires out-of-money, the maximum loss will be the Warranholder's entire investment amount in the Call Warrants plus any transaction costs.

2. RISK FACTORS

BEFORE INVESTING IN THE CALL WARRANTS, YOU SHOULD CAREFULLY READ, UNDERSTAND AND CONSIDER THE FOLLOWING RISK FACTORS IN ADDITION TO OTHER INFORMATION CONTAINED ELSEWHERE IN THIS TERM SHEET AND RISK FACTORS AND OTHER INFORMATION CONTAINED IN THE BASE PROSPECTUS, THE FIRST SUPPLEMENTARY BASE PROSPECTUS AND THE SECOND SUPPLEMENTARY BASE PROSPECTUS.

INVESTMENTS IN THE CALL WARRANTS INVOLVE DIFFERENT RISKS INCLUDING BUT NOT LIMITED TO MARKET RISK, LIQUIDITY RISK, CREDIT RISK AND THE RISK THAT YOU MAY SUSTAIN TOTAL LOSS OF YOUR INVESTMENT IN THE CALL WARRANTS.

YOU SHOULD CONSIDER CAREFULLY WHETHER THE CALL WARRANTS ARE SUITABLE FOR YOU TAKING INTO ACCOUNT YOUR EXPERIENCE, OBJECTIVES, FINANCIAL POSITION AND OTHER RELEVANT CIRCUMSTANCES. YOU SHOULD POSSESS ADEQUATE KNOWLEDGE OF THE CALL WARRANTS BEFORE INVESTING.

2.1 No warranty of thorough investigation on XIAOMI

We make no warranty to have conducted comprehensive and exhaustive research or investigation on the business operations and prospects of XIAOMI. Therefore, you should not assume that the issuance of Call Warrants represents a recommendation by us to invest in XIAOMI Shares.

2.2 Credit Risk

If you purchase our Call Warrants, you should be aware that you will be relying on the creditworthiness of our Company. You must therefore make your own assessment on the credit risk associated with KIBB and our ability to perform our obligations in respect of our Call Warrants. Credit ratings assigned by the rating agency reflect their opinion on our credit risk, which is only one aspect of any investment decision, and ratings are subject to change.

2.3 Value of Call Warrants may be affected by inherent risk of XIAOMI's business

XIAOMI is principally an investment holding company which is incorporated in the Cayman Islands and its operations is based in China. Its subsidiaries are mainly involved in the research, development and sales of smartphones as well as internet of things (IoT) and lifestyle products. Its subsidiaries are also engaged in the manufacturing and sales of electric vehicles, as well as provision of advertising services. XIAOMI distributes its products in Mainland China and other overseas markets such as Indonesia and Europe.

XIAOMI is subject to risks inherent to the abovementioned sectors. You should note that material and adverse impact in the industry in which XIAOMI operates may affect the performance of XIAOMI Shares on the HKEX and consequently affect the value of the Call Warrants.

2.4 Time decay

Call Warrants have expiry dates and therefore, a limited life. Call Warrants are generally more valuable when the remaining life of the Call Warrants are longer. After expiry, the Call Warrants will cease to be traded and can no longer be exercised, hence will cease to have any value.

The remainder of this page has been intentionally left blank

2. RISK FACTORS (Cont'd)

2.5 Adjustment related risks

The occurrence of certain events (including a rights issue or bonus issue by XIAOMI, a subdivision and consolidation of XIAOMI Shares and a restructuring event of XIAOMI) may entitle us to adjust the Terms of the Call Warrants. However, we are not obliged to adjust the Terms of the Call Warrants for every event that affects XIAOMI Shares. Any adjustment or decision not to make any adjustment may adversely affect the value of the Call Warrants.

2.6 The Base Prospectus, the First Supplementary Base Prospectus, the Second Supplementary Base Prospectus and this Term Sheet are not the sole basis for making an investment decision

The Base Prospectus, the First Supplementary Base Prospectus, the Second Supplementary Base Prospectus and this Term Sheet do not take into account your investment objectives, financial situation or particular needs. Nothing in the Base Prospectus or the First Supplementary Base Prospectus or the Second Supplementary Base Prospectus or this Term Sheet should be construed as a recommendation by us or our affiliates to invest in the Call Warrants or XIAOMI Shares.

2.7 Exchange rate risk

You should note that there may be an exchange rate risk where the Cash Settlement Amount may be converted from a foreign currency into Ringgit Malaysia. The conversion may potentially result in foreign exchange losses if there is any adverse movement in the exchange rate which will be borne by the Warrantholders.

2.8 Compliance with the relevant laws and regulations by XIAOMI

You should note that XIAOMI is subject to full compliance with the relevant laws, rules, regulations, guidelines, requirements or provisions imposed by the relevant authorities during the tenure of the Structured Warrants.

The performance of XIAOMI Shares on the HKEX may be affected due to failure to comply with the relevant laws and regulations, which may in turn affect the value and/or performance of our Structured Warrants.

2.9 Risk specific to XIAOMI Shares traded under HKD-RMB Dual Counter Model

You should note that XIAOMI Shares are traded in both HKD and RMB under the HKD-RMB Dual Counter Model on the HKEX. Thus, XIAOMI Shares are subject to the following risks in light of the novelty and relatively untested nature of the HKD-RMB Dual Counter Model:

- (i) Our Call Warrants are priced and quoted on the HKD-traded XIAOMI Shares only. Accordingly, the price of our Call Warrants will only be affected by the price movements of the HKD-traded XIAOMI Shares;
- (ii) However, factors such as market liquidity, foreign exchange conversion risk, supply and demand in each counter and the exchange rate fluctuation may cause significant deviation between the HKD and RMB traded XIAOMI Shares. Changes in the trading price of HKD-traded XIAOMI Shares may adversely affect the price of our Call Warrants; and

2. RISK FACTORS (Cont'd)

- (iii) Other factors including a suspension of Inter-counter Trading of XIAOMI Shares between the HKD and RMB counter for any reason may also affect the demand and supply of XIAOMI Shares, as XIAOMI Shares will only be traded in the respective currency counter on the HKEX (i.e. the HKD-traded XIAOMI Shares can only be traded in the HKD counter and the RMB-traded XIAOMI Shares can only be traded in the RMB counter). Hence, it may adversely affect the price of our Call Warrants.

You may refer to https://www.hkex.com.hk/Services/Trading/Securities/Overview/Trading-Mechanism/HKD-RMB-Dual-Counter-Model?sc_lang=en for more details on the HKD-RMB Dual Counter Model.

2.10 Risks related to the COVID-19 endemic and possible similar future outbreaks

The ongoing COVID-19 endemic and any possible future outbreaks of disease may have a material and adverse effect on the business operations, financial position and prospects of XIAOMI, the performance of XIAOMI Shares and consequently affect the value of the Call Warrants.

Should there be another outbreak of disease that causes disruptions to global and domestic economic activity, KIBB Group's financial position may be adversely impacted. Prolonged and material impact on KIBB Group's financial position may also cause a downward rating in KIBB Group credit rating profile, which could in turn affect the ability to meet our financial commitments as a Structured Warrants Issuer.

KIBB Group has put in place the necessary Standard Operating Procedures ("SOP") for COVID-19 and other possible future outbreaks of disease and fortify the vibrancy of Business Continuity Management ("BCM") of the Group to ensure the preparedness, responsiveness and robustness in managing this event risk. Though there remain significant uncertainties in assessing the severity of the impact from COVID-19 or other disease outbreak, KIBB Group is actively monitoring and evaluating this fluid situation and shall take any additional actions as necessary.

3. SUPPLEMENTAL GENERAL INFORMATION

3.1 Basis of arriving at the issue price

The issue price of the Call Warrants of RM0.150 was based on the Exercise Ratio and the warrant pricing model which takes into account the Exercise Price of the Call Warrants, volatility of XIAOMI Shares, tenure of the Call Warrants, expected dividend yield of XIAOMI Shares and interest rates.

3.2 Details on use of gross proceeds

We will use the indicative total gross proceeds arising from the Offer of up to RM5.25 million, based on the issue price of RM0.150, in the following manner:-

	Note	RM
Working capital	(i)	5,000,000
Estimated expenses	(ii)	250,000
Total		5,250,000

Notes:

- (i) *This amount will be utilised for our general working capital purposes during the tenure of the Call Warrants.*
- (ii) *The estimated expenses include but not limited to professional fees, fees to authorities, selling fees and printing fees which will be used as and when the expenses are incurred.*

3.3 Break-even analysis

Warrantheolders may calculate the break-even level of their investments in the Call Warrants as follows:

$$\text{Break -even Level} = \frac{\text{Exercise Price} + \frac{[(\text{Purchase Cost}^{(i)} \times \text{Exercise Ratio}) + \text{Exercise Expenses}^{(ii)}]}{\text{Settlement Exchange Rate}}}{1}$$

Notes:

- (i) *This is the amount a Warrantheolder pays for every unit of Call Warrant in the primary or secondary market, including where relevant, transaction costs such as brokerage fees, clearing fees and stamp duty.*
- (ii) *The Exercise Expenses will be borne by KIBB unless affected by the occurrence of a settlement disruption event.*

Warrantheolders will obtain positive gain only if the price of XIAOMI Shares exceeds the break-even level upon exercise of the Call Warrants.

The Further Issue will form part of the existing Structured Warrants in issue (“**Existing Issue**”).

For the purpose of facilitating Market Making, KIBB may apply for a Further Issue in respect of the Structured Warrants subject to the following conditions:

As an Issuer, it is our business policy to stand by our products by providing liquidity. As stipulated by the Bursa Securities, we will maintain a minimum market presence of 80% of trading hours on each day that Bursa Securities is open for trading and a maximum spread between bid and offer prices of ten (10) bids.

The process of providing liquidity involves maintaining bid and offer prices on the trading system of Bursa Securities on each Market Day, over the life of the Call Warrants. Although we endeavour to provide liquidity for the Call Warrants on Bursa Securities, the level of liquidity will depend on competitive forces and the price at which the Call Warrants will trade on Bursa Securities upon or subsequent to its listing. Besides the supply and demand for the Call Warrants in the secondary market, there are other factors affecting the price of the Call Warrants such as, without limitation, the underlying unit price, intrinsic value, dividend expectations, expected volatility, prevailing interest rates and the time left to the expiry of the Call Warrants.

As the liquidity provider, we would need to maintain a certain number of Call Warrants as inventory for the purposes of liquidity provision during the tenure of the Call Warrants. The minimum quantity of Call Warrants for which liquidity will be provided is fifty (50) board lots (5,000 units of Call Warrants). We may during the tenure of the Base Prospectus, the First Supplementary Base Prospectus and the Second Supplementary Base Prospectus issue additional Call Warrants in a particular series subject to the approval of Bursa Securities.

However, you should note that there would be circumstances under which we are unable and could not be obliged to provide liquidity, due to reasons beyond our control. Such circumstances are set out in Section 5.2 of the Base Prospectus.

You may obtain bid/offer prices for the Call Warrants (in respect of prices that appear on the trading system of Bursa Securities, and/or in respect of direct business transactions) from us at the following contact details:-
